Profile Summary

B.Tech student specializing in Computer Science and Data Science, with expertise in building scalable web applications, user-friendly UI/UX, and backend systems. Proficient in Python, JavaScript, and React.js, with a strong foundation in data structures, algorithms, and Agile methodologies. Passionate about delivering clean, efficient code and solving complex problems in e-commerce platforms.

Education

Kakinada Institute of Engineering and Technology B.Tech in Computer Science and Data Science (CGPA: 7.65)	Kakinada, Andhra Pradesh 2024 – Present
SIR.C.R.REDDY INTER COLLEGE Intermediate Education (MPC, 54.7%)	Eluru, Andhra Pradesh 2020 – 2022
Sai Rakesh School 10th Grade (SSC, 96.5%)	Gavaravarm, Andhra Pradesh 2019 – 2020

Skills

- **Programming Languages:** Python, JavaScript, C++
- **Frontend Technologies:** React.js, HTML5, CSS3, Tailwind CSS, Figma (UI/UX)
- **Backend Database:** Node.js, Express.js, MongoDB, PostgreSQL (Basic)
- **Tools Methodologies:** Git, GitHub, Agile
- **Soft Skills:** Problem-Solving, Collaboration, Communication

Projects

Data Dialect NLP-based Multi-Modal Text Extraction and Language Translation	GitHub
◦ Developed a React.js frontend with Flask backend for extracting text from images, audio, and videos. ◦ Implemented language translation and key notes generation for PDFs using NLP techniques. ◦ Enhanced user experience with seamless multi-modal input processing. ◦ Technologies Used: React.js, Flask, NLP, OCR, Speech Recognition, Translation APIs	
TAFEA Platform Web Application for Extracurricular Planning	GitHub
◦ Built scalable MERN stack platform with structured lesson plans and progress tracking. ◦ Designed intuitive UI using Tailwind CSS, improving user engagement. ◦ Technologies Used: React.js, MongoDB, Node.js, Tailwind CSS	
Music Recommendation System (MRS) ML-Based Recommendation Engine	GitHub
◦ Developed recommendation system using ML algorithms for personalized song suggestions. ◦ Optimized data processing with Pandas and NumPy for efficient performance. ◦ Technologies Used: Python, React.js, Pandas, NumPy	

Experience

Software Development Intern

IIITH (TAFEA Platform)

Dec 2024 – Jan 2025

Hyderabad, Telangana

- Developed scalable web platform for extracurricular activity training, focusing on clean code and responsive UI.
- Collaborated with cross-functional team to implement features using Agile methodology, optimizing backend performance.
- Technologies Used:** React.js, Node.js, Express.js, MongoDB

Web Development Intern

KHUB (College Technical Club)

Sep 2024 – April 2025

Kakinada, Andhra Pradesh

- Enhanced UI/UX for college projects, writing maintainable React.js code and integrating APIs.
- Participated in code reviews and sprint planning, ensuring timely delivery in team environment.
- Technologies Used:** React.js, Figma, Tailwind CSS, JavaScript

Achievements

- Secured 3rd place in college hackathon for ML-based project, solving complex problem in 24 hours.
- Won 1st place in intra-college coding competition, solving algorithmic challenges under time constraints.
- Semi-finalist in Toastmasters Master Oriented Championship, delivering 7-minute district-level speech.

Certifications

- Winter Internship Certificate, IIITH (Dec 2024 - Jan 2025): Demonstrated proficiency in developing scalable web applications using React.js, Node.js, and MongoDB in Agile environment.
- KHUB Junior Intern Certificate, KHUB (Sep 2024 - April 2025): Gained expertise in UI/UX design and frontend development with React.js, Tailwind CSS, and API integration.
- Foundations of Modern Machine Learning (A Grade), iHub-Data IIITH: Mastered ML algorithms and data processing.
- Basics of Python, Edyst: Gained proficiency in Python programming and problem-solving.

Declaration

- All provided details are accurate, with commitment to delivering faithful services.

(Mohan Sunkara)
